# Principles of Pharma Market Access in Europe

Understand Market Access and grasp the structure of a healthcare system with its stakeholders – Learn the Market Access environment in Europe's major markets – Know how to develop a Market Access Plan and how to communicate value to stakeholders.

## Dr. Nick Proctor & Mark Silvey

- Senior consultants with the Adelphi Group, a group of specialist companies that uniquely embraces all the disciplines that integrate into Market Access.
- This expert faculty combines a unique blend of expertise and experience of all strategically vital aspects in market access optimisation.

## By Attending This Course, You Will

- 1) Grasp the full meaning of Market Access, its importance for optimising product launches and its implications for the whole organisation, from phase II up to post-launch.
- 2) Learn to integrate market access concepts into clinical and brand marketing plans.
- 3) Have a good understanding of the differences across the healthcare systems in Europe (EU-5) with respect to optimising market access for your brands.
- 4) Gain insight into how stakeholders - and which ones! - impact on the success of your brand along its lifecycle.
- 5) Know how to develop a Market Access Plan from early phase II up to post-launch, including all tactical components.
- 6) Learn to use the concepts and techniques that have proven to be successful in influencing the market access decision-makers.
- 7) Gain expert insight and advice from an expert faculty with vast relevant cross-functional and multi-therapeutic experience from both industry and consultancy.

## Why You Should Attend

**The Content:** In this programme, in addition to providing you with a thorough understanding of market access concepts and tools and the key stakeholders involved, we will share concrete examples and show how market access should be integrated in your clinical and brand plans.

**The Experts:** The faculty has lived the experience of integrating market access issues into commercial and clinical plans. They have advised multiple companies on market access and pricing strategies at global and local levels. Together, they encompass the broad cross-functional expertise that is required to effectively build market access into clinical and brand plans.

*The Principles of Pharma Market Access in Europe course is the only available public training course delivered by Nick Proctor and Mark Silvey on the topic of market access.*

## Who Should Attend

This Pharma Market Access introductory course is a must for international brand managers without formal training in this field, as well as for managers in functions that contribute to optimising market access, such as health economics, business intelligence, health outcomes research, marketing communications and public affairs.

Managers in local marketing organisations with responsibility for optimising market access in national markets will also benefit but they should be aware that the scope of this seminar is primarily international (global or regional).
