

C.E.L. for pharma
CENTRE FOR EXECUTIVE LEADERSHIP

The Pharma Brand Planning Course

Learn how to analyse your brand's market so that you discover all sales levers – Know how to determine priority segments and define a value positioning statement – Learn how to design the optimal mix of marketing tactics in both Red (highly competitive) & Blue (highly innovative) Ocean markets.

Edouard Demeire

- Co-author of *GOOD PHARMA. How Marketing Creates Value in Pharma* (Corstjens & Demeire, 2014).
- Contributed to the design of Roche's and Novartis' Brand Planning Processes. Designed and runs Roche's courses for marketing and non-marketing audiences worldwide.
- Visiting Professor at CEDEP (INSEAD) and other business schools.
- Developed business simulation games for the pharma industry (e.g. STRATPHARM) and trained 1000s of executives on pharma marketing strategy since 1990.

By Attending This Course, You Will

- 1) Increase the sales and marketing ROI of your brands by learning how to determine the marketing tactics that will effectively leverage opportunities in the market.
- 2) Ensure your future brand marketing plans will logically link marketing tactics to smarter patient / stakeholder insight and analysis.
- 3) Know how to design marketing mixes for your brands in "Red Ocean" (highly competitive) markets that are superior to the competition.
- 4) Learn how to make the competition irrelevant by creating "Blue Ocean" (highly innovative) market environments for some brands, using value innovation concepts and tools.
- 5) Be armed with a box full of handy tools you can use back in the office.
- 6) Benefit from Edouard's wealth of experience in training & coaching numerous pharma companies on best-practice pharma brand marketing planning across a wide spectrum of therapeutic and geographical markets.

Why You Should Attend

The Content: You will learn how and when to use simple but powerful analytical tools in a well-structured process that culminates in the design of "visionary", high-impact brand plans with a logic between the final action plan and market dynamics. You will be armed with a box full of handy tools that can be implemented as of first day you return to the office!

The Expert: Edouard forces you to think "out-of-the-box". He challenges his audience and, while he is an authority in pharma marketing strategy, he also transposes learnings from other industries to stimulate creative thinking. His approach sparks plenty of new ideas!

The Pharma Brand Planning Course is the only available public training course delivered by Edouard Demeire on the topic of brand planning.

Who Should Attend

The Pharma Brand Planning Course is highly suitable for marketers early in their career who wish to master the concepts and tools required to generate successful brand marketing plans. It is also beneficial for more experienced managers who want to benchmark and refresh their current practices.

For non-marketers who wish to gain a thorough understanding of pharma marketing, we refer to Edouard Demeire's 2-day course *Principles of Pharmaceutical Marketing for Non-Marketing Functions*.

Learning Methodology

This course uses a variety of learning approaches, including interactive lectures, a case study (Betaprolol case), as well as group work and plenary discussion sessions. Working in groups of 3-5 delegates on the Betaprolol case, developed by Prof. Demeire, will enable you to practice the concepts and tools taught during the interactive lectures that alternate with group work.

One of the most valuable aspects of attending any C.E.L.forpharma course is not only being able to have your specific questions answered by a leading expert, but also having the opportunity to share experiences and have in-depth discussions with your international peers.
